# Streaming platform

Stream. Transcode. Enjoy.

TV just got better...

## Why Fleex?

Choose Fleex for a flexible, scalable, and comprehensive solution that transforms the hospitality experience, offering your guests the ultimate in comfort, convenience, and entertainment.

### Comprehensive Solution

Fleex offers an all-in-one software suite tailored for the hospitality industry, covering everything from IPTV to building management and telephony.

### Flexible and Scalable

Whether for small hotels or large resorts, Fleex adapts to your needs, providing standalone or integrated solutions.

### Enhanced Guest Experience

Deliver superior service with features that improve comfort, convenience, and entertainment for guests.

### Cost-Effective solution

Enjoy a one-time investment with continuous free updates, ensuring long-term value without recurring costs.

### Ease of Use for all

User-friendly interfaces minimize training needs and simplify operations for staff and guests.

### Seamless Integration

Compatible with major hotel IPTV brands, Fleex fits smoothly into your existing infrastructure.

### Customizable Branding

Personalize interfaces and devices with your logo to strengthen brand presence.

### Safety and Reliability

Advanced features ensure a secure, dependable environment for both guests and staff.

Fleex Streamer is the perfect solution for seamless real-time streaming of video and audio content in various formats and protocols.

With its ability to transmux, transrate, transize, and transcode, it offers unparalleled flexibility in converting video and audio streams in real-time. Its support for a wide range of protocols, including UDP, RTP, RTMP, RTSP, WebRTC, HLS, L HLS, MPEG-DASH, SRT and HTTP-FLV, means that you can stream your content over any network, no matter the conditions.

- ▶ Highly innovative and intelligent
- ▶ Evolves continuously by absorbing your feedback
